Safety and Security

According to an April 2015 analysis by State Farm, hail and wind damage cost the insurer and its policyholders more than \$2.4 billion in 2014¹. All Boral Steel™ products are Class 4 Hail rated² and warranted for hail up to 2-½ inches in diameter and winds up to 120 mph³, helping protect your home while adding peace of mind.

¹State Farm Ranks Top States for Hail Losses - 2014 - <https://www.claimsjournal.com/news/national/2015/04/13/262782.htm>

Beautifully Efficient

Whatever the style, color or finish of your current roof, a Boral Steel™ Stone Coated roof can further enhance the appearance of your home. Whether you want the look of shingle, clay tile, cedar shake or slate, you can select a Boral Steel roof that will highlight the beauty and increase the efficiency of your home. It will look beautiful for decades to come and requires little to no maintenance to provide this lasting improvement to your home's curb appeal.

Asphalt Shingle

147°

attic temperature*

Boral Steel
Stone-Coated
Roofing System

84°

attic temperature*

Why Steel?

Energy-Efficient

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing Boral Steel Stone Coated Roof System with Above Sheathing Ventilation (ASV) to a common asphalt shingle installation. The result is less heat in the attic and lower energy bills.

PINE-CREST

Shake

Engineered to replicate hand-split wood shake with the durability of steel.

Boral Steel™ Accessories

Boral Steel offers a wide range of innovative accessories for all of its panel profiles. It is these simple yet well-designed parts and pieces that provide a perfect finish to any roof.

Have you considered what is underneath your roof?

Boral Steel™ Cool Roof System

These components provide energy efficiency and give great return on your investment.

Boral Steel™ Stone Coated Panel

Shown in PINE-CREST Shake Charcoal

Boral® MetalSeal Underlayment

Boral® Elevated Batten System® (EBS)

Continuous Ridge Vent

Hot air rises and is vented off the roof.

Above-Sheathing Ventilation (ASV)

Hot air always rises and creates a natural convection effect. This allows the heated air to be exhausted through ventilation, which causes a continuous airflow across the roof deck. The result is a cooler attic and living space in the home.

No matter the install method, direct-to-deck or EBS battens, a Boral Steel™ Stone Coated roof with ASV can help provide energy savings compared to asphalt shingles.

The Oak Ridge National Laboratory (ORNL) conducted a 12-month study on the effects of high IR pigments vs. metal roofs installed with an airspace*. The study showed that above-sheathing ventilation can reduce heat flow into a building by nearly 30%. This can lead to an increase in year-round energy efficiency by reducing heat gains during the summer and heat losses during the winter. These dramatic results prove Boral's Elevated Batten System® is just as important to achieving energy efficiency as reflective roofs.

*The complete report is available for download from our website www.BoralRoof.com, Resources, Technical Bulletins.

ABOUT BORAL ROOFING

Boral Roofing LLC is a subsidiary of Boral USA and is the country's largest premium provider of complete roofing and re-roofing solutions for architects as well as commercial and residential builders. Boral Roofing operates manufacturing plants throughout the US.

ABOUT BORAL NORTH AMERICA

Headquartered in Roswell, Georgia, Boral North America is a leader in key construction materials and building products markets with operations across the USA, Canada and Mexico. In 2017 Boral acquired Headwaters Incorporated, expanding Boral's product offering and manufacturing and distribution footprint across North America. In construction materials, Boral has a national footprint and industry-leading position in the processing and distribution of fly ash – a by-product of coal combustion – as well as a Texas-based concrete block business, and Denver concrete and quarries operations.

In building products, Boral manufactures and supplies cladding, roof tiles, windows and other light building products for residential and commercial markets nationally. Boral's manufactured stone veneer includes leading brands Cultured Stone® by Boral®, Boral Versetta Stone®, Eldorado Stone, Dutch Quality Stone and StoneCraft. Boral's light building products portfolio includes Boral TruExterior® Siding & Trim – a pioneer of the innovative poly-ash category of exterior building products – as well as shutters, gable vents, mounting blocks and tool systems. In roofing, Boral is a leading manufacturer of clay and concrete roof tiles, and also produces composite polymer and stone-coated metal roof tiles.

Boral also has a 50% share of the Meridian Brick joint venture, a leading clay and concrete brick manufacturer which was formed with Forterra Brick in 2016.
